

Mechanical Engineer

McGregor Allsop is currently accepting applications from experienced Mechanical Engineers for available opportunities at our Toronto office.

Duties:

- Preparation of mechanical plans and designs in accordance with established codes, standards, drawings or other specifications.
- Carry out technical surveys, calculations or inspections of moderate complexity under the supervision of a senior engineer.
- Utilize a variety of standard engineering techniques in solving problems and liaise with senior engineers.
- Preparation of reports and client correspondence.
- Manage all project activities throughout the project lifecycle. (allocation of adequate resources, scheduling, budget, documentation etc.)

Education & Experience:

- Bachelor's degree in Mechanical Engineering
- Minimum 4 years of mechanical engineering work experience with building systems (consulting industry preferred)
- Registered with Professional Engineers Ontario (PEO)
- Knowledge of building services such as HVAC, plumbing and fire protection.
- Experience using engineering design software. (i.e. Autodesk CAD and Revit 3D)

Skills/Qualifications:

- Excellent English communication skills (written & verbal)
- Excellent time management, negotiation and presentation skills.
- Exercise effective judgment, sensitivity to changing needs and situations.
- Effectively communicate technical information to non-technical parties.
- Able to travel to both local and remote client sites.
- Note: Employment subject to a criminal background names check.

Hiring Salary Range: Per Professional Engineers Ontario Guidelines (commensurate with experience)

All applications (cover letter and resume) should be submitted via email to careers@mcgregor-allsop.com. Please reference competition number 2017-MECH-02 in the subject line of your email.

MECHANICAL ENGINEER
